## Technology at work for you

### CONNECTING YOUR BUSINESS TO THE TECHNOLOGY RESOURCES YOU NEED

Our goal stems from the idea that every entity, person or business, operates within their own “world.” As a professional in a particular field, you are exposed to so much that many others will never see or experience. This becomes the “world” in which you operate.

Our business is to provide you with the technology solutions you need to help manage that world. We see technology as something that can be shaped to our clients’ needs, and stay true to the view of working with technology as a craft.

We know how daunting it can be to find the right solution, with so many options out there today. There is rarely a single solution to fill all needs. At Tekhne, we provide the best and most cost effective solutions based on your needs, drawing from currently available products as well as creating solutions as required.

## Flexible solutions for your business needs

### TEKHNE PROVIDES A TOTAL END TO END SOLUTION.

Through our partnerships with industry leaders, such as Intel, Xerox, HP, Cisco, and Aruba, to name a few, Tekhne can provide a complete solution to your IT needs. We don’t just ask you what you want and sell it to you. We get to know your business and your users’ needs so that we can work with you to craft a solution to any issue.

We are not just consultants, but a full solutions provider. Whether you need a simple repair, or need to plan a nationwide rollout of new systems, we work with you from start to finish, giving you a single point of contact who will ensure your needs are fulfilled.

Our clients rely on us to do the research and help them decide on the best course of action for their IT infrastructure. We are always up to date on the latest technology, and always on the lookout for ways to save you money. We never sell a product that we don’t or wouldn’t use ourselves.

## CUSTOM SOLUTIONS

We handle anything that involves a computer. So even if you don't think we can do it, just ask. We have never turned down a request, and have created some amazing things.

## HOSTED SOLUTIONS

Let us offload some of your infrastructure to the cloud, with services like archiving, data backup, hosted Exchange, PBX, anti-virus, and virtualization.

## IT STAFFING

Have a project or short term need for extra hands? Let us complement your IT staff with skilled professionals who will do what it takes to get the job done.

## MANAGED SERVICES

At Tekhne, we know you can't manage what you can't measure. Our 24 x 7 monitoring, alerting and reporting service provides us with the information, data, network performance trending analysis and security vulnerability information critical to service, plan and manage your IT environment.

You have invested in your IT infrastructure and rely on its performance, security and reliability. Tekhne's services not only ensure you have a qualified team ready to service this critical asset but also the real time data to ensure its being done on time, when needed, using the most advanced network asset tracking and performance monitoring.

## OUTSOURCED IT

Let Tekhne be your IT department. We know how challenging running a business can be, whether it's a small business or a worldwide enterprise. Your IT infrastructure should not be one of those challenges. Often, IT is forgotten about until something breaks, causing unexpected frustration and expenditures.

At Tekhne, our sole focus is your IT infrastructure, and we have the tools, resources, and, most importantly, the talented people to take care of it. We make sure that everything runs smoothly so you never have to deal with the unexpected when it comes to IT.

The Small Business Administration conducted a study and found that 80% of small business will go out of business if they can't access their data for 3 days or more. We can help you ensure that this doesn't happen to you, in the most cost effective way possible.

Let us show you what we can do for your World. Call us at 877-835-4635 or e-mail us at [info@tekhnellc.com](mailto:info@tekhnellc.com) to get started.

We look forward to working with you.

## About Us

**Our mission is to provide best of class services and products while reducing total cost of ownership, to help our clients manage their world.**

**We view our work as a craft, and employ only the most skilled and knowledgeable craftsmen.**

"As technology is the continuation of evolution by other means, it shares the phenomenon of an exponentially quick-ening pace. The word is derived from the Greek tekhnē, which means "craft" or "art," and logia, which means "the study of." Thus one interpretation of technology is the study of crafting, in which crafting refers to the shaping of resources for a practical purpose. I use the term resources rather than materials because technology extends to the shaping of nonmaterial re-sources such as information." -Ray Kurzweil

Aside from products and services, Tekhne, LLC is actively involved in the communities which we serve. Tekhne is a trustee member of the South Miami Chamber of Commerce and a founding member of the International Information Technology Guild, a non-profit providing technology to those in need. Employees also take an active role in their communities, through volunteering with various organizations and natural disaster response teams.
